REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record do not anticipate nor do they reasonably suggest the saw table assembly of claims 5, 10, and 28. The closest prior art, Van Cleave (US 3,955,456), discloses a portable saw table comprising many of the elements claimed including, inter alia, at least one rail (at 51); a saw track (e.g. 68, 69); a bracket (66); a locking block (20); a plate (e.g. 17 or above thereof); and a cam (56). However, Van Cleave lacks a locking block that includes a semi-circular recess for interface with a cam (claim 6); a gripping ring sandwiched between the plate and bracket for increasing the coefficient of friction between the plate and the bracket (claim 10); and the first and second table sections as claimed in claim 28. With respect to claim 28, another related prior art, Break et al (US 5,651,298), teaches a portable saw table having table sections (e.g. at 28-31, c. 3, ll. 31-42) that are interlinked vis-à-vis arms. Break et al does not teach or suggest the tongue and groove arrangement as claimed. Moreover, none of the other prior art of record fairly teach or suggest these lacking features. Thus, it is believed that the claimed inventions with the lacking features in combination with all the other recited features are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
